CircuitWorks Flux Remover Pens

CircuitWorks® Flux Remover Pens are designed specifically to remove each type of flux:

- Rosin Flux Remover Pen quickly cleans type R, RMA, and RA flux residues.
- No Clean Flux Remover Pen precisely removes both organic and synthetic low solid no clean fluxes.
- Lead-Free Flux Remover Pen quickly cleans type R, RMA, and RA rosin flux residues as well as organic and synthetic no clean fluxes used in higher heat lead-free applications.

FEATURES & BENEFITS

Completely removes flux in seconds
Spot cleans tight tolerance areas on circuit boards
Marker dispenser provides controlled spot cleaning
Dries fast

Ultimate Guide to Benchtop PCB Rework & Repair

(/ultimate-guide-to-benchtop-pcb-rework-repair)

The reality is that no soldering operation produces perfect assemblies every time. Even the highest quality components fail from time-to-time. That's why understanding the best rework and repair methods and materials is so important for those who manufacture, maintain, or repair printed circuit boar...
